SAI SREENATH REDDY YARRADODDI

Software Engineer - Python | AI/ML | Agentic AI | AWS | React

+91 8688718090 | saisreenathreddyy@gmail.com | Linkedin | Github

SUMMARY

Software Engineer with hands-on experience building production-ready Agentic AI systems and LLM-powered applications. Certified in AWS Cloud and Generative AI, with practical expertise in Amazon Bedrock AgentCore, RAG pipelines, and multi-agent architectures to design autonomous, scalable AI workflows. Strong background in Python-based backend development and cloud-native deployments, delivering end-to-end solutions that reduce manual effort and improve business efficiency. Known for clear communication, ownership, and the ability to translate complex AI concepts into impactful, real-world systems.

SKILLS

Programming & Software Engineering: Python, JavaScript, Java, C++, Backend API Development
Artificial Intelligence: LLMs, RAG, Agentic AI Systems, Multi-Agent Architectures, LangChain, LangGraph, n8n, Flowise, Prompt Engineering, Autonomous & Human-in-the-Loop Agents, Memory-Augmented Agents
Backend/Frontend & App Dev: Flask, REST APIs, React, Android Studio, Figma, Mobile-First & Voice-First Application Development
Frameworks & Libraries: TensorFlow, Scikit-Learn, Numpy, Pandas, Figma, Android Studio
DevOps/Tools: AWS, Azure, Docker, Kubernetes, Git, CI/CD
Databases: MongoDB, SQL, VectorDB

WORK EXPERIENCE

Senior Associate - DES - App Dev **Nov 2025 - Present**

Sutherland Global Services Pvt. Ltd., Hyderabad, Telangana, India

- Worked in the development of an **Agentic AI**-powered proposal platform for IT service teams named Propello, that transforms short deal inputs into structured, client-ready proposals using AI, reducing proposal creation time by ~60% with improved consistency and quality.
- Built and integrated an end-to-end **RAG-based Q&A AI Agent** and led **backend/API integrations** across the platform, improving system performance which contributes in the improvement of proposal win rates.

AI/ML Engineer **Apr 2025 - Oct 2025**

Versalence Infocomm Pvt. Ltd., Bengaluru, Karnataka, India

- Built an industry-first **Agentic AI system** using **custom RAG + LLM orchestration** to **automate** QRF-to-BOQ generation with STAAD Pro integration, reducing manual effort by ~70%, improving quantity accuracy by ~35%, and cutting procurement turnaround from days to minutes for a client.
- Delivered an **AI-powered Android & iOS application** with a native-language **voice assistant** in collaboration with the Telangana Government, increasing information accessibility by ~50% and **reducing manual support** dependency by ~40% for farmers.

PROJECTS

- **Propello - AI Proposal Builder**

Designed and implemented scalable backend integrations using **Python**, **Agentic AI**, **RAG**, FastAPI, React, and MongoDB to enable end-to-end workflows, seamlessly integrating **LLM-based AI logic** with existing services while ensuring reliable data flow, intelligent **agent orchestration**, and maintainable architecture for AI-driven features.

- **Smart Weed Detection and Targeted Herbicide Spraying Robot Using YOLOv5 and CNN-Based Soil Moisture Analysis with App Integration**

Built a mobile-controlled robot capable of detecting weeds based on soil moisture analysis using YOLOv5 and CNN for effective usage of herbicides. Integrated with an Android app for live video stream, directional control and Bluetooth-based communication.

- **AI-Powered FAQ Assistant with Context-Aware Memory**

Built a **GPT-3.5**-based assistant with **LangChain** and **FAISS** to provide **context-aware** answers from embedded FAQs, enabling intelligent retrieval-augmented generation through a Streamlit interface.

- **Customer Support Ticket Analyzer & Router**

An **Agentic AI-powered** system that intelligently classifies and routes customer support tickets based on severity and priority using **multi-agent architecture.**

EDUCATION

B.Tech in Computer Science and Engineering — **Sep 2021 - Apr 2025**
Vellore Institute of Technology, Chennai — Score: **7.56/10**

Intermediate — **Jun 2019 - Jul 2021**
FIITJEE Junior College, Vijayawada — Score: **965/1000**

SSC — **Jun 2018 - May 2019**
Government High School, Piler — Score: **10/10**

CERTIFICATIONS

- **Certified AWS Cloud Practitioner, Amazon Web Services:** Built a strong foundation in cloud architecture, scalable infrastructure, security, and cost-optimized deployment strategies for AI workloads.
- **AWS Generative AI and AI Agents with Amazon Bedrock, Coursera:** Gained hands-on exposure to building generative AI applications and AI agents using Amazon Bedrock AgentCore and foundation models.
- **AWS Generative AI Applications, Coursera:** Built practical knowledge in creating end-to-end generative AI applications on AWS by integrating LLMs with APIs, data sources, and cloud services.
- **AI Agents and Agentic AI with Python & Generative AI, Coursera:** Acquired skills in developing autonomous, goal-driven AI agents in Python using LLMs, tools, memory, and multi-step reasoning.
- **RAG by Deep Learning.AI, Coursera:** Gained expertise in designing RAG pipelines using embeddings, vector databases, and LLMs to deliver accurate, context-aware responses.
- **Microsoft Azure Administrator, Microsoft:** Developed proficiency in managing Azure infrastructure, including compute, networking, storage, identity, and monitoring for AI systems.
- **Microsoft Certified Azure AI Fundamentals, Microsoft:** Built foundational knowledge of AI and machine learning concepts, including NLP, computer vision, and responsible AI using Azure services.
